

Essex Region Conservation
the **place** for life

Santa Team Challenge!

Are you part of a school, community group or a business? Do you have corporate wellness goals? Want to have fun while helping to support local conservation? The Santa Team Challenge might be right for you!

How It Works

Register

Each team should designate a team captain who will be responsible for team creation and management tasks.

A Team must have a minimum of 10 participants.

Creating your team ahead of official registration will ensure all members can join your team easily and will see your company's team during the registration process. Contact Jay Santarossa to create your team at jsantarossa@erca.org.

Recruit

Invite your full- and part-time employees, their friends and family members to participate if you are a business, or your schoolmates or club members if you are a school or community group. The more, the merrier in this jolly race!

Fundraise and Participate

Once your team is created and your team members have registered, it's time to get to fundraising. All proceeds from the Super Santa Walk/Run/Wheel support local conservation efforts. So not only will your team build its community while raising the profile of your organization, but you'll also contribute to the environmental sustainability of our region! You can use our handy fundraising kit, and our easy online pledge system to raise tax-deductible donations for local conservation! You'll be amazed at what a little extra support can do!

Timed Competition Scoring

The three fastest chip times of each team will be added together, with the lowest total time winning the Santa Team Challenge plaque and bragging rights – as well as a place of honour on Santa's NICE list!

Super Santa

Perks

Discounted Registration

For teams meeting the MINIMUM requirement of 10 members or more, receive a \$5 discount per team members. Be sure to contact jsantarossa@erca.org for your team promo code before entering!

Employee / Social Engagement

In a world now filled with working from home and virtual meetings, connecting with co-workers or providing meaningful social opportunities for your group members is important. The Santa Team Challenge can foster a spirit of community amongst your team, particularly during the festive holiday season. Team members will have more reasons to connect with each other to train together and make plans for all the jolly good fun!

Wellness

Maintaining our health and wellbeing is crucial. The Santa Team Challenge is a perfect way to encourage student, employee or club member wellness and strengthen your team. Not only can they walk, run or wheel together in preparation, but they can compete against other companies to win friendly bragging rights.

Social Responsibility

As all funds raised at the Super Santa Walk/Run/Wheel support local conservation efforts, your participation helps position your organization as one committed to local environmental sustainability.

Join the Santa Team Challenge today!
